USA CATALOG

| MAKE SURE IT'S RAK |

This catalog is the working instrument of all RAK Porcelain distribution channels. The availability of certain products may vary depending on countries. Please check the availability of the products you would like to purchase with the distributor/importer of RAK Porcelain in your area. Current prices apply.

RAK Porcelain sets the table – and the world standard – by designing, manufacturing, and supplying exquisite quality tableware.

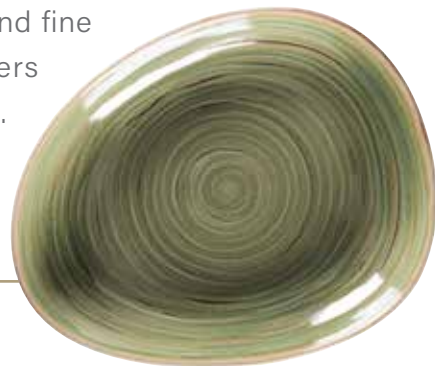

RAK Porcelain specializes in the designing, manufacturing, and supply of exquisite quality porcelain tableware, catering to the international HoReCa industry. We have modernized, state-of-the art manufacturing capabilities in our impressive 320,000-square-foot factory in the United Arab Emirates.

Our core divisions are situated in UAE, Luxembourg (Europe), and Imperial, PA, with additional showrooms in Chicago and New York. This gives us a robust distribution network spanning five continents and reaching over 165 countries.

We are redefining and elevating the dining experience, making it seamless, relaxing, and delightful. We are strategically positioned to raise the bar of quality and design to offer the ***complete tabletop solution***. With our beautifully crafted porcelain dinnerware, stylish flatware from Sola The Netherlands, and the most compelling glassware in the market, we are uniquely positioned to be the one-stop tabletop

solution for all casual, family, and fine dining experiences that delivers with excellence and innovation. RAK Porcelain is setting the new standard in tabletop.

It's all about

Blending Elegance with Dependability.

RAK Porcelain blends design and functionality to bring you refined tableware that provides the ultimate setting for your culinary creations. We offer a range of high-alumina porcelain perfectly complemented by Sola The Netherlands flatware and fine glassware. For top chefs around the world, we are the preferred choice of tabletop solutions.

We passionately strive to attain excellence that stretches across the globe yet is felt locally. We

raise the standards of our customers' expectations ... then deliver beyond that standard. The goal is worry-free performance that creates memorable dining experiences for all guests.

Set the Table. Set the Mood.

Setting a table is also setting the mood. Are you striving for understated and elegant? Bold and stark? Rustic and handmade? Imaginative and otherworldly? We have a look for you – and the glassware, flatware, and serveware to complete the feeling.

Each piece is made to shine uniquely in its own spotlight, while also complementing its sister pieces. A table set with RAK Porcelain is one of brilliance, adventure, and cohesion. Top chefs and hosts (and their guests) demand the very best. That is what RAK Porcelain delivers, time and again.

the table.

Illuminating. High Alumina.

Dinnerware is our specialty. We offer a wide range of solutions to fit any of your tabletop needs. Chefs can choose the refined elegance of our bone china collection. They can explore the wide array of shapes found in our extensive Ivoris and Polaris collections, both comprised of a high-alumina oxide body that provides durability and superior quality. Seeking rustic? Our RAKStone Collection is inspired by studio pottery and RAK Earth captures the charm of terracotta. All of these are exclusively offered to you with the durability of porcelain that you can trust.

RAK Porcelain USA offers one of the most exceptional combined collections of dinnerware, glassware and flatware. We are the benchmark in restaurants, hospitality, and catering. Our products are developed to meet the needs of the most discerning restaurateur, with bold, original looks and long-lasting performance.

This is how the table is set!

Attention Chefs!

Here's how you can be part of our next RAK Porcelain USA Catalog:

Throughout this edition, we feature a collection of chefs and mixologists from fine restaurants across the country sharing cuisine and drink recipes – along with their favorite RAK dinnerware or glassware. To appear in our next catalog, simply scan the QR code and submit your recipe. Make sure to tell us what RAK ware you use to highlight the dish. If we choose your recipe, you could be our next featured creator!

LE BALLET

Bravura	14
Fedra	20
Pose	24
Spectra	26

Light as a feather ... sturdy as a bull. Legendary porcelain mirrors the graceful, delicate appearance of ballerinas, achieved with an athletic, trained core. Due to its high mechanical and physical strength, Bone China shows great chip resistance, luminosity, and an ethereal beauty. As a leading dancer giving the performance of a lifetime, RAK bone china lets culinary works of art shine.

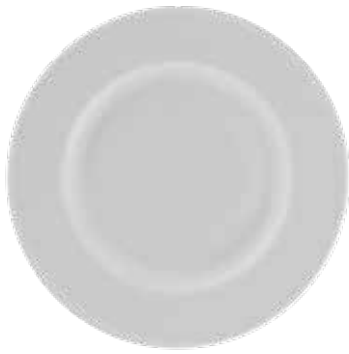

Bravura

Make a memorable entrance with Bravura, showing off its curves, arches, and style. This series marries an elegant silhouette and delicate timeless grace, executed with precision. Is your tabletop ready for its close-up?

Metalfusion 40

Pebbles & Cobbles 46

Ignite your inspiration with versatile looks designed to fire the imagination. Set the room alight with designs and glazes that shine, shimmer, and dazzle. Precious metals, cobblestone, and minerals are evoked in new and creative ways, all with an eye on a lavish presentation that retains functionality.

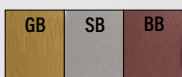

Metalfusion

In tones of platinum, gold, and bronze, with deep groove accents and other adornments that create the illusion of motion, Metalfusion stands up to the mettle of even the most creative chefs.

 POLARIS
COLLECTION

Polaris features an extra-white and an exceptionally solid porcelain that is perfectly suited for the hospitality industry. Every crucial detail is considered in its production to maximize levels of alumina oxides for strength and superior quality. The result is a dazzling white vitro-porcelain with excellent performance against abrasion, high temperatures, and mechanical shocks.

IVORIS
COLLECTION

In a warm white shade close to ivory, Ivoris boasts a high level of alumina for strength. It provides the ultimate resistance against the physical demands of the kitchen and dining room as well as chemical aggression due to maintenance and contact with food products. The variety of the series offers infinite mix-and-match possibilities.

B. Concept

With B. Concept even the most diverse buffets can be presented harmoniously. Platters fit together geometrically to create either cohesion or contrast, and stands come in four different heights that can be used independently or combined into wedges, half-circles, and circles.

“We love working with RAK dinnerware at Kinzie Chophouse. Using the more modern dinnerware they offer has really pushed us to escape the traditional 90’s style steakhouse to something more prestigious.”

– Kevin Girshman, Chef - Kinzie Chophouse, Chicago, Ill.

Nordic

Nordic's rectilinear silhouette and minimalist simplicity give it exemplary style. Designed to be infinitely modular, it is also easily stackable.

SUGGESTIONS

It's not just about shapes. Suggestions help chefs express themselves by fusing gastronomic ideas naturally with each piece. The objective is to emphasize a new way of sharing food by creating organic-shaped plates and bowls with natural textures and beautiful, irregular overlaps. Chefs can use them to find their voice and achieve their inspiration.

Amaze

Platters and trays designed to ... Amaze. Trays fit inside deep platters, leaving a reservoir below that can be filled with ice, smoke, or aromatics to add to the presentation. Amaze lets cuisine play on all the senses.

Chill

Perfect for serving cuisine best enjoyed chilled. Deep plates leave a plentiful reservoir to fill with ice as the bowl rests securely atop. Think caviar, ceviche, shrimp cocktail ... and whatever a chef's imagination conjures.

Swirls

The most important part of a good espresso? A thoughtfully constructed cup. Here, the inner, rounded base causes a spiral flow that swirls the coffee around the cup, opening up its rich flavor and aroma.

We fell in love with the RAK Earth line the minute we saw it. We had been working on the menu for the Cinco Ninos concept in preparation for its opening and the moment we laid eyes on the Baantna line we knew that was what we wanted. The color and patterns are so fun and really add to the experience and story we are trying to create at Cinco Ninos. We are also in love with how well it holds heat, its reasonable weight, and with its durability. Beautiful, effecting, and resilient!"

Our tomato crusted lamb chops are the star of the show for our May Chef's Tasting. As we experimented with what the final plating was going to look like, it was essential to display the dish on a plate that helped to deliver the wow factor. This clean and minimalistic style plate allowed us the space and depth to plate this hearty dish without overwhelming the table while the vibrant colors/textures of the ingredients shined."

– Eric Damidot, Executive Chef - Grand Hyatt, Washington, D.C.

FUSION

Inspiration has no borders. Where chefs blend east with west, traditional and avant-garde, RAK Porcelain presents the Fusion collection. It's dedicated to the creativity of chefs who are reaching the highest levels of gastronomy. Here, tableware enters a sensory realm with porcelain reminiscent of sandstone, earthenware, slate, wood, or minerals.

Impala & Ruby

Three purple macarons are arranged on a red plate with a crackle finish. The macaron on the left is decorated with a small golden wafer and purple icing. The middle macaron is plain. The one on the right is partially visible.

Crackle finish is put to modern use for a finished look that is as bold and evocative as it is beautiful. Impala & Ruby offers modern excellence in either a dramatic black or compelling red.

Twirl

All the lively color and relaxed informality of the tropics are reflected in Twirl. Sandy beaches, streaked sunsets, and marine life all get their due in hand-decorated beauty.

Twirl is a hand-decorated collection and variation in colors and shades are part of the design. Each article of the collection within a production batch has different designs, which is not a flaw.

DINNERWARE SETTING REQUIREMENTS

This chart is based on standard restaurant settings. Your specific need may vary according to individual operation. To determine the quantity of each item, multiply the number of seats times the ordering factor shown for each item. Then, order the closest dozen quantity.

Example: Mug, 150 seats x 2 = 300 mugs.

Item	Size	Formal	Semi-Formal	Informal
Plate - Side	6-7"	2	3	-
Plate - Side	7 ½ - 8"	2	2	2
Plate - Dinner	8 ½ - 9 ½"	1 ½	2	2
Plate - Dinner	9 ¾ - 10"	3	3	3
Plate - Dinner	10 ¼" +	2	-	-

PRODUCT CARE & HANDLING

DINNERWARE

Here are the “Do’s and Don’ts” when it comes to the care and handling of RAK porcelain.

Washing “Do’s”:

- Do rack dishes immediately upon reaching the cleaning table.
- Do keep proper space on cleaning tables in dishwashing areas to allow loading and unloading of dishes.
- Do remove left-overs with a rubber scraper, gloved hands or water spray.
- Do ensure optimum water temperatures for pre-wash 110° - 140° F and wash at 150° - 160° F. Load the dishwasher adequately in size-appropriate slots. Ensure the rack holds the ware steady against water spray pressure.

Storage “Do’s”:

- Do allow dishes to dry and cool thoroughly before handling and stacking.
- Do place items carefully onto each other, never slide.
- Do always stack dishes of same sizes together – no higher than 12”.
- Do ensure all racks and conveyors are plastic-coated on contact surfaces.
- Do load items in appropriate dish racks without piece-to-piece contact.
- Do place cups and other hollowware in specifically designed racks.
- Do separate metal and glass from porcelain, sort like items in tote boxes or bus pans.

Porcelain “Don’ts”:

- Do not allow dirty dishes to pile up.
- Do not jam pack dishes together to ensure sufficient separation. Use metal trays and bus boxes.
- Do not overload storage space and dishwasher unit.
- Do not use metal utensils or other dinnerware to scrape.
- Do not pre-soak dishes—this affects glazing.
- Do not bang dishes against each other.
- Do not stack hot or wet porcelain items—allow them to dry.
- Do not stack cups and mugs—always store in plastic racks.
- Do not drop items into self-leveling dispensers.
- Do not store dishes in high-traffic areas like corridors or doorways.
- Do not scour dishes with abrasive pads or cleansers.
- Do not serve with inadequate dinnerware inventory to prevent overworking.

FLATWARE

Here are some guidelines to follow for care and handling of RAK Flatware.

Handling:

- Minimum amount of handling is required when perforated cylinders in portable racks are used to transport, wash, and dispense flatware.
- Sort flatware tines, bowls, and blades up when using a system where the flatware is transferred from a cleaning cylinder to a storage cylinder by inversion.

Washing:

- Remove all remnants of food from metalware items immediately after use. Avoid using steel wool or metal scrapers.
- Always separate flatware for pre-soaking and use a plastic or stainless-steel pan, never aluminum.
- Pre-soak and wash metalware immediately after its removal from the table. Do not leave metalware in the pre-soak solution for more than 20 minutes before it is washed. Change the pre-soak solution after 2-3 cycles of use. Chemicals accumulate in pre-soak and may cause harm.
- Do not use a pre-soak solution containing acidic silver de-tarnishing agents, including chlorides, bromides, or iodides, as these products cause severe corrosion.
- Always wash your metalware in hot water, and make sure you choose a cleaning agent free of abrasive or corrosive qualities that might damage your metalware.
- All Flatware is compatible with washing conditions in a standard, commercial dishwasher. It is recommended that you use PH neutral detergents to ensure that the flatware remains in excellent condition.
- Avoid low-temp dishwashing; it is not suited for metalware.

Rinsing:

- Consider adding a wetting agent to the rinse to prevent minerals in the water from staining your metalware.
- Utilize a softener if you have very hard water. A high chloride content in the water can also be damaging.

Drying:

- Avoid prolonged exposure and promptly remove the flatware from the dishwasher once the cycle is completed. Prolonged exposure to the warm and humid environment inside the dishwasher may lead to discoloration or corrosion over time.
- Make sure all flatware is completely dry after washing. Hand-drying is recommended upon removal of the flatware from dishwasher. Hand dry with a soft, clean cloth is recommended. This step helps to prevent water stains and discoloration on the flatware.

GLASSWARE

All Glassware is dishwasher safe. Here are some guidelines to follow for care and handling.

Helpful Hints When Using a Dishwasher:

- **Proper Preparation** – Remove excessive amounts of liquid or food from glass before washing. Pre-washing or pre-rinsing by hand is recommended for heavily soiled items.
- **Temperature/Cycle Selection** – You should use a low temperature cycle (55° C/131° F) when washing or, if possible, a special glass cycle. Use mild, phosphate-free dishwasher tablets or liquid.
- **Rinsing** – Your rinse aid must be properly dosed and in optimal measurement. Make sure the dishwasher is always sufficiently filled with rinse aid.
- **Water Hardening** – Extreme soft water is aggressive to glass. Therefore, regulate the water hardness range for the dishwasher.
- **Avoid Contact** – The glasses should not stand in contact with each other in the dishwasher. Avoid contact with other materials like pots, cutlery, and dishes. To avoid staining, ensure glasses are positioned in dishwasher to ensure all water is draining from glass upon washing.
- **Glass Racks** – Choose a proper glass rack to suit the height, bowl, and foot diameter.
- **Steam** – Open the door briefly at the end of its cycle to let steam pass and allow cooling to begin; avoid opening fully until dishwasher has cooled.

Glassware Handling Tips:

- Failure to review your product's care and handling may result in breakage of the product, diminished clarity of the glass, or personal injury. It is important to note the following tips for handling glassware.
- Avoid extreme temperature changes of glassware items. Transitioning from one temperature extreme to the next may cause stress to the glassware and risk breakage from thermal shock. To avoid this:
 - *Do not put hot items in cold glassware; do not put cold items in hot glassware.*
 - *Do not pour hot tea, coffee, or other items into a cold glassware item or one that has just been rinsed; do not pour cold beverages into glass that is warm from rinsing or a dishwashing cycle.*
 - *Only expose your glassware item to higher or lower temperature when it is already at room temperature.*
 - *Do not scoop ice with the glassware; make sure to use a proper ice scoop.*
- It's also important to handle your glassware items properly to prevent mechanical shock, which is a minute abrasion in the glass that causes weakness and makes it more susceptible to breakage from impact or thermal shock. To avoid this:
 - *Do not stack glasses when storing (unless the glasses are considered "stackable").*
 - *Do not put flatware into glassware.*
 - *Do not strike flatware against glassware.*
 - *Do not carry multiple glasses unless by the stem; only if on a tray to minimize contact between glasses.*
 - *Do not hit glassware against hard objects.*
 - *Do not drop glassware.*
- Do not pick up large glass items by the rim (especially home décor and bubble balls).
- Do lift and carry glass items by the bottoms or sides.
- Do handle glassware gently (remove abraded, cracked, or chipped glassware from use).

LIFETIME LIMITED WARRANTY

RAK Porcelain and its distribution networks offer you a limited warranty covering

chipping for several collections. Please ask your lead sales representative for a complete list of items that are covered within the 5-Year or Lifetime edge chipping guarantee.

We will replace any of those items that have rim chips, on the condition that the complaint is addressed within the valid time frame of its date of purchase. This warranty is only valid for the normal use of the products. The warranty does not cover breakage or damage arising from misuse or non-ordinary use of our products.
